SUMMARY

Senior Software, GIS & Digital Utility Engineer with 18+ years of experience spanning electrical distribution networks, GIS, SCADA/ADMS, smart grid technologies, digital transformation, control center operations, and utility information systems. Extensive experience supporting and coordinating large-scale electricity distribution modernization programs, including GIS-SCADA/ADMS integration, control center implementation, network data management, operational performance monitoring, and digital command center initiatives. Proven ability to bridge electrical engineering, geospatial technology, operational systems, software development, and data analytics to deliver practical solutions for electricity utilities. Experienced in developing GIS automation and analytical applications using Python and VBA, managing enterprise geodatabases, designing KPI and performance-monitoring frameworks, and supporting system integration, testing, commissioning, and operational readiness. Strong international project exposure and collaboration with leading technology providers including Schneider Electric, Siemens, General Electric, and Esri, with experience in FAT, SAT, commissioning, technical training, system implementation, and smart grid deployments.

EDUCATION

Bachelor of Science in Computer & Systems Engineering

- Faculty of Engineering, Al-Azhar University, Cairo - 2002 - 2007
- **Graduation Project:** Electronic Dictionary - **Project Grade:** Good

WORK EXPERIENCE

Egyptian Electricity Holding Company (EEHC)

Digital Command Center Engineer | 2024 - Present

- Monitor and analyze the operational and performance indicators of electricity distribution companies across Egypt through the National Digital Command Center.
- Develop and maintain KPI monitoring frameworks, dashboards, analytical reports, and performance indicators to support management decision-making.
- Analyze operational, technical, and commercial performance data to identify trends, deviations, and improvement opportunities.
- Provide analytical insights and recommendations to support corrective actions, operational optimization, and reduction of technical and commercial losses.
- Support enterprise-wide digital transformation initiatives through data integration, visualization, performance analytics, and automated reporting.
- Coordinate with technical and operational stakeholders to improve data quality, reporting consistency, and performance visibility across distribution companies.

GIS Engineer - Control Center Projects | 2021 - 2023

- Supported the implementation of nationwide Electrical Distribution Control Center Projects aimed at modernizing distribution network operations.
- Managed GIS network data preparation, validation, cleansing, and integration with SCADA/ADMS platforms.
- Coordinated technical activities with international technology providers, including Schneider Electric and Siemens, throughout project implementation.
- Supported Factory Acceptance Testing (FAT), Site Acceptance Testing (SAT), commissioning, and system validation activities.
- Assisted in resolving GIS, network-model, and system-integration issues to ensure data readiness for control center operations.
- Contributed to the development and implementation of GIS workflows and data standards supporting operational systems.

Alexandria Electricity Distribution Company

GIS Engineer | 2015 - 2021

- Developed GIS automation tools and applications using Python and VBA, improving data-processing efficiency and reducing repetitive manual activities.
- Managed and maintained geospatial databases containing electrical distribution network assets and related operational information.
- Implemented GIS workflows, data validation procedures, and enterprise geodatabase management practices.
- Supported GIS data preparation and quality assurance for distribution network modernization and control center initiatives.
- Contributed to the integration of GIS with operational platforms, including SCADA/ADMS-related systems.
- Provided technical support, analysis, and troubleshooting for GIS applications and utility network data.
- Prepared technical documentation and supported user training and knowledge transfer.

Operations Engineer | 2011 - 2015

- Supported day-to-day operation of electrical distribution networks and control room activities.
- Planned and coordinated network switching operations and electrical network operating scenarios.
- Supported outage management, maintenance coordination, emergency response, and restoration activities.
- Monitored network operating conditions and assisted in troubleshooting distribution system incidents.
- Applied electrical safety and operational procedures to maintain reliable and secure network operation.
- Coordinated with field and maintenance teams to ensure effective execution of operational activities.

Electrical Engineer | 2008 - 2011

- Supported the operation, maintenance, and development of electrical distribution networks.
- Participated in technical assessments, network improvement initiatives, and distribution system development activities.
- Assisted in identifying network performance issues and developing technical solutions.
- Participated in utility modernization and technology implementation projects.
- Collaborated with multidisciplinary engineering and operations teams to improve network reliability and service quality.

City Light Construction & Development Company

Web Developer - Part-Time | 2009 - 2015

- Designed, developed, and maintained websites and web-based applications using PHP and MySQL.
- Designed relational database structures and implemented customized content-management solutions.
- Developed application functionality and user interfaces to improve usability and system performance.
- Provided technical support, troubleshooting, maintenance, and application updates.

PROFESSIONAL CERTIFICATIONS & TRAINING

Esri / ArcGIS

- ArcGIS Essential Workflows
- Performing Analysis with ArcGIS
- Sharing Content on the Web
- ArcGIS Server Site Configuration & Administration
- Building Geodatabases
- Multiuser Geodatabase Deployment & Maintenance
- Designing Maps with ArcGIS
- Geodatabase Replication
- Data Editing with ArcGIS Desktop
- Field Data Collection & Management
- Versioned Workflows Implementation
- Data Reviewer for Data Quality
- ArcGIS Schematics
- CAD Data Integration with ArcGIS
- Geometric Networks for Utilities

Schneider Electric / ArcFM

- ArcFM Electric & Advanced ArcFM
- ArcFM Web
- ArcFM Mobile
- ArcFM Designer Express
- Schematic / SLD Generation
- Integrated Document Management System
- **Networking & Infrastructure**
- FortiGate Infrastructure
- FortiADC Load Balancer
- **IT & Software**
- Web Development - PHP & MySQL
- E-Commerce & E-Marketing - Cairo University
- English Diploma - British Academy

MAJOR PROJECTS & INTERNATIONAL EXPOSURE

- **Digital Command Center - Egyptian Electricity Holding Company**
- Supported digital performance monitoring and analytical capabilities for electricity distribution companies across Egypt.
- **Nationwide Electrical Distribution Control Center Projects**
- Contributed to GIS data preparation, integration, testing, validation, and commissioning activities supporting distribution control center implementation.
- **GIS-ADMS Integration Projects**
- Supported the integration of enterprise GIS network models and operational systems for distribution network management.
- **FAT & SAT - Distribution Control Center Projects**
- Participated in FAT and SAT activities for North Cairo and South Cairo Distribution Companies.
- **JICA / Siemens Project - North Delta Distribution Company**
- Participated in FAT activities for the North Delta Distribution Company project implemented in cooperation with JICA and Siemens, Germany.
- **SCADA/ADMS Training - General Electric**
- Participated in specialized SCADA/ADMS training and technical knowledge-transfer activities.
- **GIS-ADMS Integration Training - Schneider Electric**
- Participated in specialized GIS-ADMS integration training in Dubai.
- **Smart Grid Field Deployment**
- Supported supervision and implementation activities for Smart RMU and RTU installations.

Electrical Distribution Control Center Projects - Egypt (2021)

- Participated in Electrical Distribution Control Center Projects across Egyptian distribution companies.
- Contributed to Control Centers implementation and GIS/Operational Systems activities for:
 1. East Alexandria Control Center - Alexandria Electricity Distribution Company.
 2. Nasr City & New Cairo Control Centers - North Cairo Electricity Distribution Company.
 3. 6th of October & Dokki Control Centers - South Cairo Electricity Distribution Company.

JICA-Supported Distribution Control Center Projects

- Participated in Japanese International Cooperation Agency (JICA) Control Center Projects.
- Contributed to GIS, testing, validation, and operational readiness activities for:
 1. Borg El Arab Control Center and Supervisory Control Center - Alexandria Electricity Distribution Company.
 2. Helmeiya Control Center - North Cairo Electricity Distribution Company.
 3. Damietta Control Center - North Delta Electricity Distribution Company.

CORE COMPETENCIES

- Electrical Distribution Networks
- Utility GIS & Geospatial Systems
- SCADA / ADMS
- GIS-SCADA/ADMS Integration
- Smart Grid & Digital Utility Technologies
- Digital Command & Control Centers
- Distribution Network Operations
- GIS Data Management & Quality
- ArcGIS Enterprise & ArcFM
- Enterprise Geodatabases
- Python & VBA Automation
- Software Development & System Analysis
- Database Management
- Data Analytics & Visualization
- KPI Development & Performance Monitoring
- Network Reliability & Operational Optimization
- FAT, SAT & System Commissioning
- Vendor & Stakeholder Coordination
- Technical Training & Knowledge Transfer
- Digital Transformation

TECHNICAL SKILLS

GIS & Utility Systems

- ArcGIS Enterprise
- ArcFM Suite
- Enterprise Geodatabases
- GIS-ADMS Integration
- Utility Network Management
- Geospatial Data Management
- Network Data Quality
- Smart Grid Technologies
- **Web & CMS Technologies**
- WordPress
- Joomla
- Drupal
- OpenCart
- **Operating Systems**
- Microsoft Windows Server & Desktop
- Linux / Ubuntu
- Unix
- **Microsoft Office**
- Microsoft Word
- Microsoft Excel
- Microsoft PowerPoint
- Microsoft Access

Programming & Automation

- Python
- VBA
- C#
- PHP
- JavaScript
- jQuery
- AJAX
- Visual Basic 6
- HTML
- CSS
- **Databases**
- Microsoft SQL Server
- Oracle Database
- MySQL
- Microsoft Access
- **Development & Analysis Tools**
- Microsoft Visual Studio
- Visual Studio Code
- PyCharm
- Jupyter Notebook

PROFESSIONAL & LEADERSHIP SKILLS

- Technical Leadership
- Cross-Functional Collaboration
- Analytical & Critical Thinking
- Problem Solving
- Decision Making
- Stakeholder Management
- Technical Communication
- Presentation & Training
- Project Coordination
- Strategic Planning
- Quality Management
- Continuous Improvement
- Adaptability

LANGUAGE

- **Arabic:** Native
- **English:** Professional Working Proficiency

ADDITIONAL INFORMATION

- **Date of Birth:** 12 November 1982
- **Nationality:** Egyptian
- **Place of Birth:** Alexandria, Egypt
- **Marital Status:** Married
- **Military Status:** Completed
